Class XI - AI Half-Yearly Practical Examination 2025

All students of Class XI (Artificial Intelligence) are hereby informed that the Practical Examination will be conducted as per the following procedure:

Structure of the Practical Exam

- **Duration:** 3 hours (divided into two sessions).

- **Parts of the Exam:**

  1. **Planning / Writing Session (90 Minutes)**
     Students will be given **FOUR problem statements**.
     Prepare a **handwritten program** to solve the chosen problem and an explanation of the **algorithm**.
     The handwritten program must be submitted to the examiner.

  2. **Examination Session (90 Minutes)**
     The handwritten program submitted earlier will be returned to you.
     Students must individually code and execute the program on the computer.
     Execution must be shown to the examiner.
     A **screenshot of the program with output** must be saved along with the handwritten work.

Important Instructions

- The program must be well documented (algorithm, steps, and diagrams if required).

- Large differences between the planned program and the executed program may result in loss of marks.

- Students must bring their **Practical File** containing assignments completed till **01-09-2025**.

Evaluation Criteria

- **Continuous Evaluation (Internal):** Practical File & Assignments – 10 marks

- **Terminal Practical Exam (Hands-on):** Problem solving, coding, and execution – 20 marks

Total Marks: 30

Reporting Time	Exam Time	Sections
10:45 AM	11:00 AM - 02:00 PM	A & C
01:45 PM	02:00 PM - 05:00 PM	B & D & E & F

Reporting Venue: Computer Lab (Main Building)

Note for Students

- Ensure all assignments are up to date.

- Revise Python programming.

- Be punctual and follow all exam instructions carefully.
